Reporting Inability to Meet Child Care Needs

Please remember, you must notify your Provider Specialist if you are unable to provide care, for any reason, for a child(ren) enrolled through CCW. If you are unable to meet a child(ren)'s authorized enrollment schedule due to staffing, behavior issues or any other reason, you must report it immediately to your Provider Specialist so, the child(ren) do not accrue absences and you are paid correctly. If you find it necessary to close your facility due to staffing or other emergency, you must report this immediately or within three days of reopening. If eligible, you may be able to request a paid closure(s). Your Provider Specialist is available to answer your questions.

It's Time to Revisit Your Supervision Policy for Summer!

Summer will be here before we know it and you are probably busy working on your summer programming schedule. You may be hiring additional staff, planning field trips or tweaking your playground schedule. The most important aspect of your summer planning is to ensure that all of your staff understand and implement your supervision policy. As per Certification's regulation, **"Each staff person shall be assigned the responsibility of specific children. The staff person shall know the names and whereabouts of a child in his/her assigned group. Children on the facility premises or facility excursions shall be supervised by a staff person at all times."**

As part of your summer planning, revisit your supervision policy with all of your staff. As you observe each classroom, ensure that your staff are counting children before and after using the playground, taking walks or going on field trips. Ensure every staff knows which children they are responsible for and that they know the children's names. In addition, ensure that all staff are in ratio with their age group.

Summer programming is challenging and requires daily adjustments to cover staff's vacations, increased enrollments and special events or excursions. If you are hiring new staff or floaters for summer, ensure they know which children they are responsible for and that they know each child's name, especially if they are covering multiple classrooms or age groups throughout the day.

It is up to you to ensure your staff understands and implements your supervision policy. Provide your staff with attendance charts, clipboards or software tool they need to track the children they are responsible for each day. Create a safe and healthy summer program by planning and working together to keep all children safe!

Health & Safety

Oral Health - The Importance of Fluoride

There are several important ways to make teeth strong and prevent tooth decay. These include drinking tap (faucet) water with fluoride, brushing with fluoride toothpaste, and having a professional apply fluoride varnish. Fluoride is safe. It is found in nature in plants, soil, and water.

See this [Cavity Fighter flyer](#) and [Getting Fluoride flyer](#) for more information, and please post this information and/or share with families.
