## Provider Spotlight

In celebration of Earth Day, Schoolhouse Learning Center in Trumbauersville hosted a special tree-planting event. The goal was to take the learning that was occurring inside the classroom to the outdoors, and watch it come to life. With the guidance of teachers, children of all ages planted saplings on the center grounds. They took turns carefully placing each tree in the ground and covering the roots. The children were so excited to play a hands-on role in adding new life to their environment. In the months to come the children will be able to watch as the trees they planted grow.

## It's Time to Revisit Your Supervision Policy for Summer!

Summer will be here before we know it and you are probably busy working on your summer programming schedule. You may be hiring additional staff, planning field trips or tweaking your playground schedule. The most important aspect of your summer planning is to ensure that all of your staff understand and implement your supervision policy. As per Certification's regulation, **"Each staff person shall be assigned the responsibility of specific children. The staff person shall know the names and whereabouts of a child in his/her assigned group. Children on the facility premises or facility excursions shall be supervised by a staff person at all times."**

As part of your summer planning, revisit your supervision policy with all of your staff. As you observe each classroom, ensure that your staff are counting children before and after using the playground, taking walks or going on field trips. Ensure every staff knows which children they are responsible for and that they know the children's names. In addition, ensure that all staff are in ratio with their age group.

Summer programming is challenging and requires daily adjustments to cover staff's vacations, increased enrollments and special events or excursions. If you are hiring new staff or floaters for summer, ensure they know which children they are responsible for and that they know each child's name, especially if they are covering multiple classrooms or age groups throughout the day.

It is up to you to ensure your staff understands and implements your supervision policy. Provide your staff with attendance charts, clipboards or software tool they need to track the children they are responsible for each day. Create a safe and healthy summer program by planning and working together to keep all children safe!

## Health & Safety

### Oral Health - The Importance of Fluoride

There are several important ways to make teeth strong and prevent tooth decay. These include drinking tap (faucet) water with fluoride, brushing with fluoride toothpaste, and having a professional apply fluoride varnish. Fluoride is safe. It is found in nature in plants, soil, and water.

See this [Cavity Fighter flyer](#) and [Getting Fluoride flyer](#) for more information, and please post this information and/or share with families.
