Region 16 News

Juneteenth

The ELRC offices will be closed on Wednesday, June 19th in observation of the Juneteenth federal holiday. Known to some as the country's "[second Independence Day](#)," Juneteenth celebrates the freedom of enslaved people in the United States at the end of the Civil War. For more than 150 years, African American communities across the country have observed this holiday.

We're In Your Community!

In addition to our main offices in Fairless Hills and Quakertown, ELRC staff are available to meet with you at three convenient satellite locations throughout Bucks County.

Main Offices Open Monday-Friday 8:30 – 5:00

333 N. Oxford Valley Road, Suite 402-403, Fairless Hills, PA 19030 Phone 215-486-2524

136B Mill Road, Quakertown, PA 18951 Phone 267-898-3980

Call 215-486-2524 to schedule an appointment!
We look forward to seeing you!

Every Wednesday
9:30 – 3:00
Career Link Lobby
4800 E. Street Road
Trevoze, PA 19053

3rd Wednesday Each Month
9:30 – 3:00
The HUB
55 E. Court St
Doylestown PA 18901

Every Thursday
10:00 – 2:00
Bucks County Opportunity Council
721 Veterans Highway
Bristol, PA 19007

Parent Plus

Are you a parent of a 3 to 5 year old child and are concerned about their language skills? Parents Plus is an on-line program that teaches parents how to help their children with language skills. This program is for parents who have preschool children (ages 3-5) who have limited language skills. Families must be Bucks County residents. Please review the flyer in the link below for additional information.

LIFT United

Transportation in Bucks County is essential but can be challenging if you do not have a safe and reliable car. United Way's LIFT United (Learn to Invest in your Future and Thrive) can help you secure a low-interest care loan, help boost your credit score and reach financial empowerment.

Visit uwbucks.org/LIFTUnited or click [here](#) for more information.

Skilled Trade Training - Information Sessions

Do you know someone that wants to work with their hands and can benefit from free training in a skilled trade? Bucks County Community College has an opportunity for people interested in training and gaining new skills. Industrial Maintenance Pre-Apprentice Training starts on September 3, 2024. This is a great opportunity for someone that likes to work with their hands and who wants to take advantage of free training that can lead to a good job and a career with good pay.

Interested applicants should click [here](#) to see the flyer for more information. Please also visit www.bucks.edu/wfd or call 267-685-4884 to find out more or register for an information session.

Parenting Corner

Summer Fun for Families

Summer can be such a great opportunity to spend quality time with your children! Whether you are playing indoors or outdoors, there are so many different activities that can be fun for all and many activities are absolutely free! Some of these ideas are things you can do right in your backyard or around the corner in your neighborhood!

- Go on a nature scavenger hunt
- Bird watch
- Grow a garden in old coffee cans, milk jugs, or mason jars
- Look for shapes in the clouds
- Grab a magnifying glass and look for insects in the backyard or park

While being outside can be good for your mental and physical health, sometimes the weather just doesn't cooperate. Instead of giving your children screen time, which can negatively impact their mental and physical health, try building a fort or a Lego castle or have some marble races! There are so many activities that can exercise their brains, like doing puzzle races or working through a book of riddles.

Visit <https://www.parents.com/summer-fun-activities-8600043> to view 100 summer activities to do with your children this summer, pick a few, and make some great summer memories with your children!

Parent Project Podcast

Community Services for Children has been hosting the Parent Project Podcast to engage families in areas of common concern for parents. Experts provide perspectives on topics of health & safety, mental health, child transition and other important subjects.

This month, we are joined by Katie Fries a registered play therapist and owner of [All of You Therapy, LLC](#). She walks listeners through the ways to meet a child's emotional needs. Click [here](#) to listen.

PARENT PROJECT PODCAST

Child Development

Baby Talk

It's fun to talk to babies but it is also very important for their brain and language development! A baby's brain builds thousands of brain synapses every time you talk, sing or play with them. They love looking at your face and hearing you speak and they even try to engage you in talking to them by looking at your face, squealing, crying, or moving their arms and legs to get your attention.

Infants prefer “baby talk” to normal speech. They love to hear you ask simple questions like, “Where is the TRUCK?” or “The TRUCK is green! Infants like hearing you say words repeatedly and emphasizing the subject of the conversation- like saying the word TRUCK a bit louder and pointing at the truck.

Babies also like board books and as you read books to your baby, point out the pictures and emphasize the words like “This is a HORSE, the HORSE is brown, and the HORSE says NEIGHHHH.” Turn the pages of the book from left to right and they will learn how to master this pre-reading skill as well.

If you read to your baby one book a day until they are five years old, they will have heard thousands of words by the time they reach kindergarten. Reciting nursery rhymes, singing songs, pointing out objects and talking to them while they play, eat, get dressed or go for a walk, are all ways to connect with your baby and support their language development. They will only learn the words they hear, so take every opportunity to talk, sing and play with your baby!

For more tips and strategies to build your baby's language, read the article or

Health & Safety

Summer Water Safety

Drowning is the single leading cause of death for children 1-4. Drowning happens quickly and quietly, so no single prevention strategy is enough. Click [here](#) to learn all 5 Layers of Protection.

The National Drowning Prevention Alliance has created a Water Safety Season Toolkit for families to review to prevent tragic accidental drowning. Click below

Summer Heat Safety

Summer is here! Getting outside in the sunshine, exercise, practice at taking risks, socialization, and appreciating nature are some of the reasons to enjoy the outdoors with your young children. The extreme heat can pose a risk for your children. There are ways to minimize those risks.

Know the warning sign for heat related illnesses. A quick guide can be found at: [ECELS summer heat tips](#)

1. Stay hydrated.
2. Dress in light clothing.
3. Look for shade.
4. Use sunblock.

Stay safe and get outside!

Helping Children Stop Using a Pacifier

Sucking on pacifiers is a normal reflex for infants and toddlers; however, long-term use of pacifiers can affect your child's bite and the growth of the jaws and bones that support their teeth. If your child shows no interest in giving up their pacifier by age 4, they may need help to stop.

Here are some ways to help your child stop using their pacifier:

- Talk to your child. Tell your child why you want them to stop using their pacifier. Say to them you believe they can stop.
 - Take the pacifier away gradually. Let your child use it only at certain times, like naptime or bedtime. Slowly increase the amount of time that your child isn't using a pacifier.
 - Reward your child. For each day they don't use their pacifier, put a star on the calendar. At the end of an agreed upon time period, give them a non-food reward, like a trip to the park.
 - Encourage your child to throw their pacifier away. If your child asks for it, remind them that they threw it away. Tell your child they're a big kid, and big kids don't use pacifiers.
 - Trade the pacifier. Ask your child to put the pacifier under their pillow. Tell them the pacifier fairy or someone else will take the pacifier while they sleep and leave a gift instead. If your child asks for the pacifier, remind them they traded it for a gift.
 - Poke holes in the pacifier. Use a clean pin to make the holes. If the pacifier has holes in it, it won't feel good for your child to suck on.
-

Family Engagement

Math at Home!

Research shows that children are more likely to be successful with math in school when their parents include math activities at home. It is important to explore math concepts with children during their regular daily activities and routines. Click below to learn about a few easy ways to explore math at home with your child!
